Benefits of adding a Canna Magic bath bomb to your bathing experience:

BATH BOMBS ARE GOOD FOR YOUR SKIN

A bath bomb adds emollients and softeners to your bath's water that moisturize and indulge your skin. No matter what your skin type, the beneficial ingredients in bath bombs leave it soft, supple, and silky. Yes, it'll cleanse your skin, but the ingredients inside will also pamper and soothe it. Your skin will feel velvety, sinuous, and youthful.

BATH BOMBS ARE ALL NATURAL AND VEGAN FRIENDLY

Unlike other bath products that rely on a chemical makeup, bath bombs are all-natural, chemical free bath time treats. That means there are no harsh irritants that could irritate your skin. Instead, they're protective and pacifying with amazing skin softening properties.

WHY CHOOSE CANNA MAGIC?

BATH BOMBS CREATE AN ATMOSPHERE

Bath bombs help create an atmosphere of luxury and opulence. Once you drop one into your tub, it fizzes and releases delightful scents. Bath bombs are amazing effervescent balls of wonder that turn an ordinary bath into a joyful experience. You'll love the subtle transformation from bathtub to spa a simple bath bomb can create.

BATH BOMBS HAVE HEALING PROPERTIES

Almost all bath bombs contain sodium bicarbonate and citric acid. These two ingredients combine to create that fizzing sensation bath bombs are famous for. More than that, though, they clean, deodorize, and repair skin, and strengthen blood vessels. These two main ingredients leave you with healthier, younger looking skin. You'll love the rejuvenating enzymes and the healthy, glowing skin you'll have as the result of a bath bomb indulgence.

BATH BOMB'S SCENTS HAVE A PURPOSE

Many people appreciate bath bombs for their aromatherapy benefits. The scent lingers on your skin and stays with you all day. Did you know the variety of scents serve a purpose? If you're taking your bath in the morning, you'll want to opt for an energizing scent like citrus. It wakes up tired skin, wakes up a sleepy mind, and helps you face the challenges of the day. If you're taking your bath in the evening, consider calming, relaxing scents like lavender. You'll love the way it helps you relax in the bath and drift off to sleep in bed.
